WORK EXPERIENCE

MAGENTO DEVELOPER | 01/2020 - 03/2020
BigHat Digital Ltd
BigHat Digital is a start-up digital agency specialising in Magento. They have many custom extensions developed by themselves.

- Added new features onto their mega menu extension, to enable an end-user to add mega menu content from the back-end system
- Upgraded Magento 2.2 to 2.3, tested and fixed bugs.
- Removed an old module and added a new custom options extension.
- Added new features to their clients Magento1 websites – such as form validation etc

WEB DEVELOPER | 07/2017 - 01/2020
Calculus Software Solutions Ltd
Calculus Software Solutions produce the market-leading NCompass Advanced Retail system, helping their clients to grow their business, boost their reach and improve efficiency. I worked in their web development team, developing Magento websites for their clients, providing implementation and ongoing support API extension connecting to their system.

- Developed clients Magento websites, developing themes and installing extensions
- Improved their API extension 'Cartextra's checkout design
- Developed 'Cartextra's Magento2 version
- Communicated with their customers, fixed bugs and designed new campaign banners
- Collaborating with back-end developers to develop a new mobile app for their client's stock management
- Due to a shortage of Magento capability, I self taught Magento, taking various on-line courses and gaining multiple certifications. This helped to deal with increasing client demand.

WEB DEVELOPER | 01/2014 - 07/2017
FAT Promotions Ltd
FAT Promotions is a digital agency in Hastings. I worked in their web team, responsible for managing the first drafts of the all web development projects, collaborating with design teams, back end developers and upskilling interns.

- Headed website development/renewal projects and made first and 2nd draft of their websites
- Collaborated with PHP developers, developed database-driven websites, using Laravel, Zend-Framework
- Talking to their clients, fixing bugs and creating various seasonal campaigns
